OFFICIAL ENTRY
Made Denying the Murders of Pearl Bryan & Robert.
FRANKFORD, Ky., Feb. 15.—The official entry overruling the appeal of Scott Jackson and Alonzo Walling was made Saturday morning and the entry of the court of appeals is ended.
This is the action which the judges were to have taken today. All the justices went to the statehouse Friday morning, fully expecting that they would hand down their ruling.
Then it was discovered by Chief Justice Lewis that the newspapers of the country had learned of the court's intention through one of its members, and the programme was hurriedly changed.
It is agreed there will be little delay so far as Gov. Bradley is concerned. Soon after the official record reaches the governor's office a mandate for the execution of Pearl Bryan's murderers will be on its way to Sheriff Plummer, of Newport.
In making the official announcement of the court, Judge Durell said that the points raised by Attorneys Washington and Crawford had already been passed upon by the court, and that no new points had been brought out in the petitions for rehearing.

Worthington is in view of the complications which such action would cause. It is not generally believed that Worthington is a probability, as his appointment would make Senator Goebel president of the joint assembly, and would enable the democrats to prevent the election of a senator for the rest of the term when the legislature meets in extra session later on. Some of the close friends of Gov. Worthington, however, have stronger hopes.

This preliminary caucus is expected to materialize at the Willard hotel Wednesday some time.

One man who is interesting himself is a prominent attorney from Southern Kentucky, and he will arrive in Louisville Wednesday to meet with the others back of the movement in Mr. Goebel's behalf.

The known newspaper man from Bowling Green, who is known to be close to Senator Goebel, and is anxious that he should make the race, said: "The friends of Goebel think he is the man who could bring together the two factions of the party. He is a good man for the office, and would fill it with credit to himself and his constituents. The whole scheme will be hatched shortly in Louisville. Goebel has both gold and silver men backing him, and what the party leaders say will go."

"It will be difficult to make the farmers support him at first because he is a gold man. Public sentiment must be educated to right about face and this will be accomplished through the power of the press. Mark my word, Goebel will be elected governor."

STATE'S PRICE
For Toll Roads Regarded as Too High.
NICHOLASVILLE, Ky., Feb. 15.—A joint meeting of the stockholders and directors of the Lexington and Danville Turnpike Road, held here Monday night, decided to set a price on the 17 miles which run through Garrard county, where free rides have been voted. The road is the most important in the state, and the controlling interest is owned by the state. The republican officials appointed by Gov. Bradley represented the stockholders, and the democratic officials represented the directors. The price agreed on, and which Garrard county will be asked to pay for the road, is \$2,000 per mile, including a half interest in the bridge over the river, and the Kentucky and Dixie rivers. It is reliably stated that this is greatly in excess of what Garrard county is willing to pay.

The road was broken by a heavy snow, and a bitter fight is promised before a mutual price is adjusted. During the quibbling over the matter, the road was broken by a heavy snow, and a bitter fight is promised before a mutual price is adjusted.
